Electric Fencer. It is now time to fence your Sudan. Why go to the trouble to put up a two or three wire fence when you can use one wire and light posts, 60 feet a part that will hold your stock? These fencers are new in this country but you take no chance; if they don't do the work return them to me in 30 days and I'll give your money back. I'll be glad to give you a free demonstration.

## HARVEST, PLANTING PLOWING WAITING

The four words in the heading above indicates the situation to some extent in most of the West Texas farming area. Just where we are, agriculturally, right now is hard to determine.

A few miles of scouting around over the Jones-Taylor territory shows a big variety of conditions. Rains have been so irregular, and in a few areas so little that one may come upon a prosperous looking bunch of farms and right over the way it becomes shabby to nothing.

As far as harvesting is concerned, there is but little wheat and of a poor maturity to be or has been harvested. No rains no grain.

A peep at the fields from Hamlin to Stamford shows the best stands of cotton and feed of anywhere in this immediate section. Yet there are hundreds of acres freshly planted or not even planted. Cotton that is up and growing now has a fair chance to make a good yield, provided the boll weevil does not get too hungry.

Inquiry shows that most farmers who planted cotton early, regardless of moisture, have a fine stand of cotton and the same fellows have their feed up and growing. This might indicate that it is good management to plant when the time comes, regardless of the rains. More than plenty of cotton seed in the row will give enough up-lift to packed soil to get a stand of cotton even in a hard rain.

Another thing very striking: It now appears that there is too much land in cultivation, that we are able to produce far more than is needed, that instead of the rural population getting heavier it is becoming less and less each year. On this subject everybody agrees that it is not a healthy situation. Good wholesome living on a farm is the foundation of our nation. On a farm under reasonable production and marketing conditions, families can develop and live independent in an atmosphere that makes solid men and women.

Up to this modern age, maybe still, the greatest factor in successful farm life is seasons. In this part of the nation the word season means water. The water problem on the farm will not be as serious in the future as in the past. Under governmental supervision and aid the water level is going to rise, and in the retention of excess water, the entire economic background of farm life in West Texas will be improved and stabilized. Even the rough pasture lands, small or large, will have more and more attention and instead of the water rushing off it will be held to soak into the top soil to produce more and better grass for stock.

## Telephone Teamwork in Texas

Some people are surprised to learn that there are 396 telephone companies serving Texas. The Southwestern Bell Telephone Company is the largest, it is true. But there are others—395 of them—which have the important job of providing telephone service in about 830 Texas towns and cities.

The Southwestern Bell is glad its lines connect with the lines of these other Texas telephone companies, blanketing the state with a vast network of wires—so that boundaries between companies are not barriers to quick, state-wide telephone service.

Through teamwork and friendly co-operation, 396 Texas telephone companies work together to furnish Texas with telephone service that is fast, accurate, and dependable.

• Long Distance in Texas is cheap. You can telephone 100 miles for 60 cents (3 minute conversation, day rate, station-to-station).

## Editors Compliment Our Anniversary Edition

When one editor compliments another that is "something."

There is nothing that has been said about The Herald's Anniversary Edition that got so deeply right down under our hearts more than the kind complimentary remarks said by our editor friends and neighbors last week.

And when the newspaper men are joined by so many other individuals in expressing good will and best wishes to us, our gratitude deepens and there is an urge to keep on trying to produce a better Herald than ever before, and try to fight on till we can celebrate again 25 years from now.

Folks, you have been so kind, and to show our appreciation, we want to give full credit by publishing herewith the communications received since last week.

ENTERPRISE—Anson:

The Hamlin Herald came out last week in a special 44-page edition celebrating the twenty-fifth year of its management under the present owner, Bowen Pope.

The issue is replete with historical material concerning Hamlin and surrounding communities, and carries many pictures of local interest. About two years ago Mr. Pope erected a brick building in which is housed his printing plant, following plans and specifications that were worked out for his particular needs. The building is a beauty and very substantial.—Editor Hensley.

ASPERMONT STAR:

CONGRATULATIONS TO  
HAMLIN EDITOR—

Last week the Star received the 25th Anniversary issue of the Hamlin Herald, containing forty-four pages of progress for that town.

This issue was indeed well supervised by our friends, Mr. and Mrs. Bowen Pope—telling the story of Hamlin's 33 years of history making.

Pictures, yes many of them, that portrayed much meaning in the building of the community, especially the past 25 years, which Mr. Pope has been its able editor.

Hamlin should indeed be proud of this enterprise, for it is the foundation which has had much to do with the building of that splendid community.

May we say Mr. and Mrs. Pope, that we wish you the continued success, happiness and joy that you both deserve in getting out the 25th Anniversary Edition of the Hamlin Herald which was a credit to any town much larger. — Editor Clendenning.

—Note right here the Herald wants to return compliments to Mr. Clendenning, by saying that his "Jubilee Edition," occasioned by the Annual Rodeo and Pioneer Celebration—was the best paper put out in Aspermont in the past 25 years—16 pages of jam-up good reading and fat ads. Stay in there and pitch Sidney.

ROTAN ADVANCE:

The Hamlin Herald issued a big special edition last week celebrating the 33rd year of the Herald and 25 years under the present ownership. It was a very creditable undertaking and was well produced, being filled with nice advertisements and news stories of the past and present of Hamlin and vicinity.—Editor Shelton.

STANTON REPORTER:

The Hamlin Herald, Bowen Pope's newspaper, and Mrs. Pope's too, for he's as much responsible for that newsy country weekly as her husband, came out last week with 44

pages, celebrating the 25th anniversary of the Herald under the administration of Mr. and Mrs. Pope. And in commemorating the 25 years of publishing the Herald, the business and professional men of Hamlin, supported the issue with quarter pages, half pages, and whole pages of advertisements.

The historical features the edition contained, as well as the local news stories and local happenings, must have required a number of new ribbons for the Pope typewriters for they were in profusion. And say, what proof reading job! which fell upon the shoulders of Mrs. Pope, demanded a pile of hard tedious work. This job was accomplished with as much precision and cleanliness as the print-shop itself is kept—free of errors.

The edition required 33,000 impressions, and that was no little job of press work.

Hamlin is a town, a little excess of 2,000 inhabitants, and the anniversary edition of the Herald is complimentary of a town twice that number of inhabitants.

The edition was published entirely by the local shop force and a former shop employee living in Hamlin—saving the expense of high-powered writers and high-pressure salesmen.

A fine edition Mr. and Mrs. Pope and one that should be greeted with high praise by Hamlin folks, and one we are certain will result in great benefit to the community.—Editor and Mrs. James E. Kelley.

COURIER, Moody, Texas:

Last week the Courier hardly recognized the Hamlin Herald, which reached this office, containing 44 pages, commemorating the 25th (Silver) Anniversary edition of the present owner and publisher, Bowen Pope. The paper was well edited, illustrated and neatly printed, and contained quite a lot of Hamlin history and its business institutions, and reflects much credit on its publisher and efficient staff of employees. Such an edition required a lot of hard work and long hours. The Herald boasts of having one of the most modern and up-to-date homes in Central West Texas. May Editor Pope live to issue a Golden Jubilee edition.—Editor Will Gay.

STAMFORD AMERICAN:  
CONGRATULATIONS,  
BOWEN POPE!

We received a very bulky newspaper in the mail the other day and our first impression was that it must be the New York Times, but upon opening the wrapper we discovered that it was the Hamlin Herald. It was a special edition celebrating the 25th anniversary of the Herald under the present ownership. The owner, editor and manager for the past 25 years has been, still is and still will be Bowen Pope.

That 44-page edition, filled with historical information, pictures and well-displayed advertising is an achievement in itself, viewed at short range, but it is a mere incident in Bowen Pope's quarter century of service for Hamlin.

Speaking of "controlled Press" the Herald is controlled by Bowen Pope. We'd like to see any governor, politician, millionaire or special interest of any type attempt to tell Bowen Pope what to print or not to print in the Hamlin Herald.—Editor Clendenning.

### Letters

LIEUTENANT GOVERNOR'S  
OFFICEAustin, Texas  
May 31, 1939.Honorable Bowen Pope,  
Hamlin, Texas.

Dear Bowen:

I received copy of your Twenty-fifth Anniversary Edition of the Hamlin Herald. Knowing that it was your paper I have taken the time to read most of it. It is a no-

table contribution to the progress made by enterprising newspapermen in every section of the state. Twenty-five years is a long time in the life of an individual. When he has spent that much of life in one enterprise it is worthy of notice. When he has been successful in the enterprise he is worthy of attention by the general public and should be heartily commended.

I congratulate you most sincerely both on the twenty-five years of success and the special edition which is the evidence of that success.

With kindest regards, I remain

Sincerely your friend,

COKE R. STEVENSON.

Alpine, Texas,  
May 31, 1939.

Mr. Bowen Pope,

Hamlin, Texas.

Dear Bowen:

I want to congratulate you upon the special edition of your paper which I have just received. The illustrations are fine, and the write-ups are excellent and everything in the paper indicates progress and achievement. I wish we had more students at Sul Ross from such an area as yours.

Under separate cover I am sending you a copy of our 1939 Summer bulletin, and also a copy of our current annual. You will note that we are doing things not only in terms of the college, but in terms of the Big Bend National Park, and other things worthwhile to the citizens of West Texas. Why not study our summer catalog, also our annual, and then give us one of your usually good write-ups about the college and this section? We have many things that are unique, and some of these days we are going to come into our own. Why not pay us a visit and "see for yourself."

Sincerely yours,

H. W. MORELOCK,

President Sul Ross State Teachers College.

Thank you, Mr. Morelock, we have received the literature and believe us, we are still for Alpine College, the "Reception Committee to the Big Bend National Park"—the Herald will have much to say, of these two rare features in Texas, in the next few months.

Anson, Texas,  
June 3, 1939.

Mr. and Mrs. Bowen Pope,

Hamlin, Texas.

Dear Friends:

Please accept our hearty congratulations for the splendid set-up you gave us, and all others, with our compliments and best wishes for many years of continuous satisfactory service in your chosen field. May, in the language of some oth-

er, (originator unknown to me), "The Angels get you both, way down about the end of this twentieth century", and may the Giver of health and happiness be generous to each of you until you are called.

Sincerely yours,

W. H. LITTLEFIELD,  
Pres. Ideal Security Life.Abilene, Texas,  
June 2, 1939.Mr. Bowen Pope, Hamlin Herald,  
Hamlin, Texas.

Without bragging, I've seen a great many special editions in my time. Never, though, have I seen one that excelled your 25th anniversary edition of last week.

This is to let you know we are proud to be represented in the issue, both with an advertisement and the news article prepared by you. The many fine things you said about our company and our local manager in Hamlin are greatly appreciated.

Our entire organization joins in wishing the Bowen Papes many more years of useful life in Hamlin and West Texas.

With kindest personal regards, I am

Hamlin Herald, Hamlin, Texas.

Dear Mr. Pope:

Through the courtesy of either you or some other good friend I received a copy of your 25th Anniversary Edition.

I don't know when I have enjoyed anything quite so much as I did going through each page of this paper, recounting old incidents and seeing pictures of old friends whose faces no longer appear familiar. This is truly a wonderful paper, and I appreciate very much the privilege of reading it.

With kindest regards to you and yours, I am

Sincerely yours,

Dear Friend:

It is nice to have you remember me with a copy of your Twenty-fifth Anniversary "Herald." I am especially gratified to see your new home. This simply shows what enterprise will do and I know that you are responsible for the progress.

With kindest regards and best wishes, I am

## "I JUMPED AT THE DEAL

the Ford Dealer made  
on my old car!"

"How much?" says I to the FORD Dealer

My wife has been crazy for a FORD V-8. Figured I could swing it if I got a good trade on my old car. So I took the old fuss-maker around to the FORD Dealer.

"DID I GET A TRADE!"

The figure I had in mind was good enough. Imagine my surprise when the FORD Dealer paid me even more for my old car. Said he needed some used cars right now. You bet I jumped at the deal.

"HAS IT GOT STYLE!" Drove home in a brand new FORD V-8. Man, that is the sweetest running car I ever handled. And is my wife proud? She says the FORD V-8 was designed for women—the last word in style and luxurious comfort. We are the envy of the neighborhood—but not for long, I expect. Tom, Jim, Dave, Henry and Bill have already talked to me and the FORD Dealer is going to have a busy day.

## Women Answer From 12 States

To date, Touring Reporters have visited the principal cities of 12 Southern states; have asked 1297 users their famous question: "Did CARDUI help you?"

Of those 1297 users, 1206 said they were definitely benefited by CARDUI. That's 93 out of every 100. What a record!

CARDUI is a good stimulant for lagging appetites, a real aid to digestion and assimilation. That's why its proper use enables so many women and girls to build up physical resistance, and thus helps them avoid the periodic pain of functional dysmenorrhea due to malnutrition.

Mr. and Mrs. Howard Stapleton, of Petersburg, are visiting his sister, Mrs. Van Huling and family.
